

LURIAN APPROACH IN INTERNATIONAL PSYCHOLOGICAL SCIENCE

First Information letter

The year 2017 marks **115 years from the birth of Alexander Luria (1902-1977) and 40 years from his death**. To commemorate the life and scientific achievements of this world-renowned psychologist Yeltsyn Ural Federal University, Moscow Lomonosov State University in collaboration with the Russian Psychological Association (RPA), American Psychological Association (APA), Tomsk State University, Kemerovo Federal University, International Society of Applied neuropsychology (ISAN), International Society of Cultural-historical Activity Research (ISCAR), Institute of Vygotsky in Portugal, Center for Integrating Neuropsychology and Psychology (CINAPSI) in San Paulo, Moscow Research Center of Developmental Neuropsychology and Irkutsk Research Center of Family Health and Human Reproduction are pleased to announce

The Fifth International Luria Memorial Congress.

The congress will be held on 13-16 October 2017 in Yekaterinburg, capital of Ural.

The congress will include plenary and thematic sessions (oral and poster presentations), round table discussions and evening lectures of the leading specialists in psychology and neuroscience from Russia and other countries. A competition will be organized between the papers of students, postgraduate students (Ph.D. fellows) and young researchers (under 33 years old).

The working languages of the conferences are English and Russian. There will be simultaneous translation during the congress.

The social program of the congress The Ural is the place where Alexander Luria (1902-1977) started his excellent career as a neuropsychologist. During the World War II he was the head of a rehabilitation hospital in Kisegach – a small Ural town. Here he has developed with his colleagues the world known methods of neuropsychological assessment and rehabilitation of soldiers after traumatic brain injury. The social program of the congress will include a visit to this historical place, as well as to the other world known historical places and famous museums of Ural.
